ELIGIBLE FOR FEMA
ASSISTANCE.

LEAD YOUR BUSINESS BACK FROM COVID-19 CLOSURES SAFELY AND EFFECTIVELY.

DETECT ESCALATED TEMPERATURES

Escalated temperatures could indicate COVID-19 or other seasonal viruses. Jogan Thermal Checkpoint uses the FDA-backed global standard of measuring body temperature from the tear ducts.

AUTOMATE YOUR RE-ENTRY PROCESS

The design and technology behind Jogan Thermal Checkpoint addresses the inaccuracies and false results produced by other commonly-used scanning methods. Take responsible precautions to protect customers and staff using turn-key solutions for greater accuracy.

PROTECT YOUR CUSTOMERS & STAFF

Additional features extend beyond fever detection to offer proactive solutions for limiting both symptomatic and asymptomatic spread of COVID-19.

PRODUCT FEATURES

Printing self-expiring tags or wristbands

Facial recognition and real-time data

Detecting whether visitors are wearing a mask

Geospatial mapping of people with elevated temperatures
